

**REMARKS**

Claims 1 to 46 have been canceled. New claims 48 through 78 have been added with claims 54, 63, 67, 69, 71 and 73 being independent. Claim 47 having previously indicated as being allowable also remains.

Applicants appreciate the indication of allowability of claim 47. The prior independent claims 10, 21, 25, 27, 29 and 32 have been rewritten as new independent claims 54, 63, 67, 69, 71 and 73 and further include the recitation of a pump and a reservoir and further that

“said flow control device, together with the pump and reservoir, forming part of a continuous loop fluid circuit, said flow control device being adjustable to control the release of pressurized fluid from the continuous loop fluid circuit.”

Applicants believe that the foregoing amendments along with the previous indication of allowability of claim 47 place this application in condition for allowance. Accordingly, it is respectfully requested that the subject patent application be passed to issuance without delay.

It is believed that no additional fees are due. However, should that determination be incorrect, the Commissioner is hereby authorized to charge any deficiencies to Deposit Account No. 50-0562 and notify the undersigned in due course.

Date: 3/13/09

Respectfully submitted,

David H. Voorhees  
Attorney for Applicants  
Reg. No. 33,325
